

Anil Kumar Kaushik is a senior IT leader with 38 years of rich experience in envisioning and executing BPCL's (Bharat Petroleum Corporation Limited) IT / Digital strategy at the corporate level and at two of its largest business units - Refineries & Retail. He retired from BPCL as Executive Director IS Group Refineries in June 2019.

A four-time CIO 100 award winner, he has led deployment of numerous large-scale complex IT projects in Communication Network, Information Security, Infrastructure & Applications domains. As a part of the senior leadership at BPCL, a Fortune 500 company, he was responsible for the overall IT Infrastructure for BPCL including the Data Centres, Security Operations Centre, Network Operation Centre and Services Support to users as well as overall cyber security. He is extremely passionate about early adoption of new technologies and talent development. His expertise includes vendor management and contract negotiation. He has led large teams (100+) to revamp IT infrastructure and customer loyalty programs at BPCL, one of India's largest Oil Marketing Companies.

He had also spent 10 years on deputation, in two spells, at Oil Coordination Committee (then an Apex Body under Ministry of Petroleum & Natural Gas) and has good understanding of overall working of Oil & Gas Industry.

Currently he is working as an Advisor to management team of M/s Sequaretek which is a global cybersecurity company, which offers end-to-end security in the areas of enterprise threat monitoring, incident response (Percept XDR), device security (Percept EDR), identity & access governance (Percept IGA) through their own AI driven Percept Cloud Security Platform (PCSP).
